Subject: Summary Table - 08/13/2015
[Surface Water Summary Table 20150812.xlsx](#)
[ATT00001.htm](#)

See attached. I am sending this to hqs by seven. I am sure you have no time to look at it but this is the process.

Should be 3 worksheets, one for each region

Subject: HQ Summary Table for Tomorrow Am Delivery

Marty and team. As discussed with Marty earlier attached are the HQ tables for R6 and R9 for your review. R8 will be coming in a little. Megan got another data set of validated data she wanted to load. All the validated data for r6 and 9 for the night is in. I wanted you to

take a look at it and make sure we are doing what you want before we send all three to you for delivery to the EU tomorrow am.

Let me know if these are not correct. Again this is just for validated data against the screening tables that R8 has been using with the understanding this may change a little as R6 and R8 get more information from their EUs.

Also in a couple of days I am confident that we will be able to start running this from the combined incident project once we normalize our lab data deliverables and data management procedures for all the regions together. Marty and I made some good decisions tonight on some of these things.

Review and let me know. I will send R8 as soon as they are done.

Thanks.

Janine Polinko Latham
